PROFESSIONAL SUMMARY

Senior Full Stack & AI Engineer with 10+ years of experience in AI/ML, data science, and full-stack application development. Extensive expertise in building scalable web and mobile applications using React, React Native, Node.js, and Python. Strong hands-on experience with LLMs, RAG architectures, analytics pipelines, and machine learning workflows. Proven ability in cloud computing, database design, and DevOps practices including AWS, Azure, Docker, Kubernetes, CI/CD, and monitoring. Skilled in designing API-driven systems, optimizing relational and NoSQL databases, and leading end-to-end product development for enterprise platforms and high-growth startups.

SKILLS

React, React Native, Python, Node.js, AI/ML, Data Science, Cloud Computing, Database Design, DevOps, AWS, Azure, Docker, Kubernetes, CI/CD, Monitoring, API Design, Relational Databases, NoSQL Databases, Agile Methodologies, UI/UX Design, MERN Stack, LAMP Stack

WORK EXPERIENCE

Sr Full Stack Engineer/Developer
Elitser Technologies Pvt Ltd | India
Jun 2024 - Present

Backend Development for Compass Portal: Led the development of the Compass Portal (Core42) backend using Python (FastAPI/Django) and Node.js, implementing key platform features including MSAL-based login, user and subscription management, API keys, usage reporting, and an API Playground for testing models.
• Architected and implemented Azure SaaS Marketplace integration for seamless subscription activation and billing.
• Designed and developed a React Native companion app for the Compass Portal.
• Built highly interactive and reusable React Native components.

Team Lead & Senior UIUX Developer
Gulf Way Marketing LLC | Dubai, AE
Jul 2023 - Feb 2024

Set the technical direction and coding standards for all projects, ensuring consistent architecture, scalable design, and adherence to Agile methodologies. Managed and delivered over 12 web and mobile projects end-to-end using React, React Native, Node.js, Angular, and Django.
• Built a fully functional React Native delivery management app with real-time order tracking.
• Created a cross-platform rental management app using React Native + Expo.
• Delivered a complete React + Node.js + MongoDB beta version of a veterinary management system.

Team Lead and Data Scientist
DiGIMENA FZE | Dubai
Apr 2020 - Feb 2023

Led the UI enhancement team for the Jubna Advertising Platform, focusing on complete UI/UX redesign, improved responsiveness, and enhanced revenue-generation tools.
• Utilized MongoDB, Express.js, Node.js for full-stack development.

• Achieved measurable company growth and engagement through UI/UX improvements.
